For 133 years, The Strater Hotel has walked hand in hand with the Durango community — through great times, exciting celebrations and milestones as well as the difficult times. Together we've weathered these challenges and this unprecedented time in our shared history is no different. Above all, we want to do what we can to ensure the health and safety of all our guests, our team members and their families, and this community. We are carefully following the safety recommendations of the Centers for Disease Control and Prevention and appropriate public health, government and travel industry guidelines.

The Strater Hotel is locally owned and operated, keeping dollars in our local economy. In addition to the hotel, on-site food service (dine in-room), internet accessibility, we have large meeting room capabilities to accommodate social distancing.
